## The Live Wires 2009 Christmas edition

Wow what a year, and I bet most of us are saying we are glad its almost over, I definitely fall into that category, but saying that a lot was learned this year, some good some bad, it will definitely be remembered.

PHD will be closed from the 18th December 2009 until the 4th January 2010 Please take note of our closing and opening times as this could effect our lead times

I do have a very pleasant announcement to make, Mike or Director is getting married, we wish him and the future Mrs Pires all the best for the future.

We would also like to congratulate Warren and Mario, for there excellent sales performance for the month of October, keep it up guys, South Africa is a better place because of you to, well certainly our Hospitals are.

We would also like to thank all of our customer, key partners and Distributor for a successful year with the prospects for 2010 looking very promising!

We would also like to thank everyone at PHD's head office in Kew, because of all the hard work and commitment you made a special year even better, we thank you and wish you and your families a Merry Christmas and a safe and prosperous new year.

We would also like to caution all people on the roads this year please be careful, you know how dangerous it is, be safe and have fun 2010 here we come!

## PHD's strategy for the year of 2010

PHD has printed catalogues of their UPS systems, Surge protection equipment and Switch gear products if you haven't already collected one we urge you to do so.

If you missed any of our monthly news letters you can download them at [www.powerhoused.co.za/index\\_files/LiveWire.htm](http://www.powerhoused.co.za/index_files/LiveWire.htm)

PHD is also in the process of setting up a National support and maintenance network, we will be able to offer installations, maintenance and service back-up anywhere in the country for more information contact us at [info@powerhoused.co.za](mailto:info@powerhoused.co.za)

PHD updates their web page every month to ensure that all information is up to date and accurate, we have a ups and inverter help page we also offer installation diagrams and cable sizing diagrams on the web page for reference purposes,

Due to our commitment to customer satisfaction, we have invested great time and energy planning for the future, so we have decided to streamline our product range and therefore we have a clearance sale on the following items: **Pure sinewave Inverter chargers, 6kVA diesel generators, Light fittings, Cameras, solar water pumps complete with solar panels and pipes, 1KW wind turbines and Home inverter systems.** If you would like a pricelist on the following items then please send your request through to [info@powerhoused.co.za](mailto:info@powerhoused.co.za)

PHD has also acquired new premises for storage purposes, so we can now enlarge our already large stock holding in order to offer the shortest lead time possible.

PHD is the reliable option, we give our customer expert advice and we always go out of our way to help you our friends with an exceptional product . **PHD FOR LIFE**
